# PUMPKIN PATCH PAN

**DETAILS:** Hand-wash only. **Use:** Before each use, wash pan with hot, soapy water. Oven safe to 400°F. Use only wood, silicone, plastic or other nonmetal utensils to avoid scratching the surface. For best results, brush pan with a nonstick baking spray with flour. Turn pan upside down and tap to remove excess flour. These steps will help ensure easy release and excellent pattern definition. When pouring in batter, begin with a small amount, making sure that the liquid fills in all of pan's details. Pour in remaining batter. To prevent overflow, do not fill more than 3/4 full. Gently tap pan on counter several times to release excess air bubbles from batter. After baking, cool on a wire rack for 10 minutes. To unmold, tap pan firmly a few times. Invert onto a cooling rack and lift pan away. Allow cake to cool completely before decorating.
